When you look up a word in the dictionary, you will see a small letter next to the meaning, which tells you the word’s **part of speech**. There are four (4) common parts of speech: noun, verb, adjective, and adverb. In this lesson, you will be exploring verbs and adverbs.

<table>
<thead>
<tr>
<th>Part of Speech</th>

<th>Examples</th>
</tr>

<tbody>
<tr>
<td><strong>verb (v)</strong></td>
<td>an action word; something that you do</td>
<td>talk, smile, work, have</td>
</tr>
<tr>
<td><strong>adverb (adv.)</strong></td>
<td>a word that tells you more about a verb or adjective (these words often end in –ly)</td>
<td>quickly, very, really, softly</td>
</tr>
</tbody>
</table>
Let’s take a closer look at verbs:

Every sentence has a **subject** (a person, place, or thing) and an **action verb** (what the person, place, or thing is doing).

**Example:** *She ran.* (*she* is the subject, *ran* is the verb.)
*Michael wrote.* (*Michael* is the subject, *wrote* is the verb.)
*The car stopped.* (*car* is the subject, *stopped* is the verb.)

In each sentence below, underline the subject and circle the verb. The first one is done for you.

1. The **dog** bark(ed).
2. The wind blew.
3. The ship sailed.
4. I ate cookies.
5. Chris draws.

A linking verb is a verb that does not show action but it connects the subject and the verb to additional information.

Example: Jorge is a soccer fan.

*Is* isn't something that Jorge can physically do. It links the subject, Jorge, to more information about him.

*Tara always feels tired when she stays up watching television all night.*

*Feels* connects the subject, Tara, to her state of being, tired.

Some verbs that are always linking verbs are the forms of the verb “to be” such as: am, it is are, were, was, has been, are being, etc. A couple of other verbs that are always linking verbs are: become and seem.

There are verbs that can be used as action verbs or linking verbs. Some of these verbs are: feel, look, appear, smell, taste, turn, sound, etc. So, how do we tell if they are being used as action or linking verbs? Let’s explore these verbs!
One strategy to use when figuring out whether a verb is an action verb or a linking verb is to replace the verb with the words *is, and,* or *are* and see if the sentence still makes sense. If the sentence still makes sense, it is a linking verb. If the sentence does not make sense, it is an action verb.

**Example:** The apple pie *tasted* delicious.

The apple pie *is* delicious.

*Tasted* can be replaced with *is* and the sentence still makes sense. *Tasted* is a linking verb in this sentence.

Mary *felt* the slimy worm.

Mary *is* the slimy worm.

When *felt* is replaced with *is,* the sentence does not make sense. Mary is not the slimy worm. So, *felt* is an action verb.

Decide whether the underlined verb in each sentence is a linking verb or an action verb. Write L for linking verb or A for action verb on the line provided.

____ 7. Celeste *drank* diet soda.
____ 8. The coffee *smelled* strong.
____ 9. Maria *smelled* the flower.
____ 10. My sister *eats* pretzels.
____ 11. The cat *seemed* ill.
____ 12. We *baked* cupcakes.
____ 13. He *felt* feverish.
____ 14. Silvia *hung* the picture.
____ 15. Karina *plays* soccer.
Let’s take a closer look at adverbs:

**Adverbs: describe action words**

*Adverbs* are words that describe verbs, adjectives, or other adverbs. They can describe *how, where, when, and to what extent* an action happens.

**Example:** *Ricardo walks slowly.* (Slowly describes how Ricardo walks.)

*Ricardo walks very slowly.* (Very describes how slowly Ricardo walks.)

Often times, adverbs end in –ly. Most adverbs that describe “how” end in –ly, such as the word *slowly*. However, not all words that end in –ly are adverbs. For example, the word *supply* ends in –ly, but can be a noun and a verb but not an adverb. On the other hand, not all adverbs end in –ly. For example, the word *always* is an adverb that does not end in –ly.

The table below gives examples of adverbs that describe *how, where, when, and to what extent*:
