

# Reading On The Move

## Starting With the Basics

### The Alphabet and Alphabetical Order Skills

The **alphabet** is a set of letters. They follow each other in order. They are used to make words. This is the alphabet we use:

#### Upper Case

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

#### lower case

a b c d e f g h i j k l m n o p q r s t u v w x y z

The letters in the top row are in the **upper case**. They are called **capital letters**. Capital letters begin the first word of every sentence. The letters in the bottom row are in the **lower case**. As you can see, lower case letters are used most of the time.

The names of people, places, and things begin with capital letters. For example:

Señora Rodriguez

Miami, Florida

Dr. Chang

Europe

Friday

James Madison

Paco

the Mississippi River

Main Street

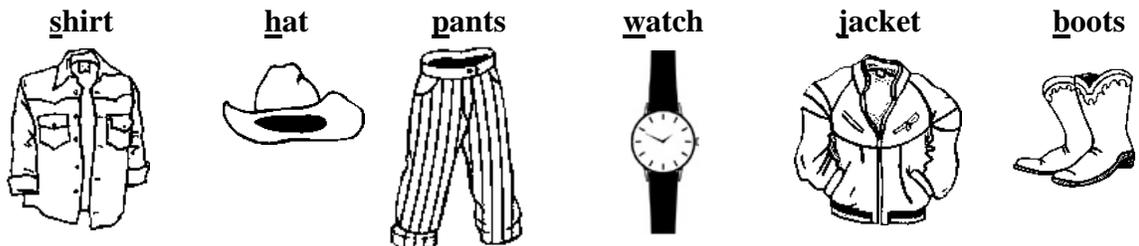

January

Knowing the order of the alphabet is important. Lists of words are part of our daily lives. When lists follow the order of the alphabet, they are in **alphabetical order**.

Some lists that are in alphabetical order are:

- names in the telephone book
- words in a dictionary
- the songs on your iPod
- the list of contacts in your cell phone
- items for sale on amazon.com, e-bay, etc...
- list of offices in a large building
- topics of information, either online or in a book
- files of people served by lawyers, doctors, and teachers
- files of tenants (**people who pay rent to live somewhere**) and employees (**people who work for a person or business**)

Above is a list of words. Let's put them in alphabetical order. Remember, that means you list them in the same order as the alphabet.

- Look at the first letter of each word. Look at the alphabet above. Which word begins with the letter closest to the letter "A"?

\_\_\_\_\_

*If you wrote the word, **boots**, you are correct.*

- Which word begins with the letter next closest to the letter “A”?

\_\_\_\_\_

*If you wrote **hat**, you are correct.*

Use this method to put the rest of the words in alphabetical order. Fill in the blanks below.

The rest of the list should be in this order: ***jacket, pants, shirt, watch***

Now, try some more words.

**refrigerator**

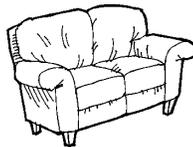

**chair**

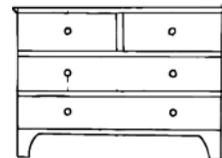

**stove**

**lamp**

**couch**

**dresser**

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

Write the list in any order:

First list: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Your list has two words that begin with the letter, “c” – **couch** and **chair**. Which word should go before the other? To answer this, you must look at the second letter of each word: **couch**                      **chair**

Which of these letters is closer to “A”? The “h” in **chair** is closer to “a” than the “o” in couch. The word **chair** will go before the word **couch**. Now, write the list in alphabetical order:

1. Final list: \_\_\_\_\_

Try some words on your own! Use the alphabet below to put this grocery list in alphabetical order. Remember to look at the first letter of each word.

## Using the Index

The **index** of a book lists the topics included in the book. It can be found in the end pages. The topics are listed in *alphabetical order*. A number appears after each topic. It is a page number. That is where information about the topic can be found.

Below you will see a sample index page. It is from a textbook on American history. Look at it for a few minutes. Notice the way the topics are listed. If you don't understand anything about it, ask your teacher. Use the index

page to answer the questions.

3. On what pages would you find information about:

b. the Indian Removal Act?
